

Personal, Social and Emotional

Development: We are refining our abilities in our everyday life at school, how we relate to our friends and peers, how we take part in daily challenges in preparation for Year 1.

Communication and Language Development:

We are trying really hard to speak in clear sentences and to take account of our audience. We are also developing our explanation skills, asking and answering question skills and using talk for writing.

Physical Development: We are thinking about how to keep healthy in the summer weather and refining our gross and fine motor skills ready for Year 1.

Literacy: Now we are really good readers we are all learning how to discuss what we read to show our understanding. We are also doing lots of exciting writing, using our lovely clear speech to write whole sentences and maybe even stories!

Reception Summer Term 2017

Castles

Maths: We are concentrating on problem solving using numbers and shapes. Deciding how to start tackling a problem and being able to explain our thinking using some mathematical language.

Understanding the World:

Exploring castles inside and out this term! We will be learning the vocabulary of castles and castle life, building junk castles, dressing up, dancing and turning our Role Play Corner into a castle....we're even having a banquet!

Expressive Arts and Design: As well as all the usual opportunities, we are exploring different sorts of role play exploring castles and techniques including weaving, clay and collage. We are also using all sorts of media to build castles and learning Medieval music and dances!

Enrichment Activities:

Forest School every week.

Medieval Banquet

One World Our World Week.

Sports Day
