

Personal, Social and Emotional

Development: We are refining our abilities in our everyday life at school, how we relate to our friends and peers, how we take part in daily challenges in preparation for Year 1.

Communication and Language Development:

We are trying really hard to speak in clear sentences and to take account of our audience. We are also developing our explanation skills, asking and answering question skills and using talk for writing.

Physical Development: We are thinking about how to keep healthy in the summer weather and refining our gross and fine motor skills ready for Year 1.

Literacy: Now we are really good readers we are all learning how to discuss what we read to show our understanding. We are also doing lots of exciting writing, using our lovely clear speech to write whole sentences and maybe even stories!

Reception Summer Term 2018

Seas and Pirates

Maths: We are concentrating on problem solving using numbers and shapes. Deciding how to start tackling a problem and being able to explain our thinking using some mathematical language. Applying our maths to everyday life such as; money and time.

Understanding the World:

Exploring seas and pirate ships inside and out this term! We will be learning the vocabulary of seas, pirates and pirate life, building junk ships, dressing up, dancing and turning our Role Play Corner into an undersea world and pirate ship.

Expressive Arts and Design: As well as all the usual opportunities, we are exploring different sorts of role play exploring seas and pirates using techniques including weaving, clay and collage. We are also using all sorts of media to build an undersea world and costumes.

Enrichment Activities:

Forest School every week.

Spring Festival music workshop.

Family learning afternoon.

Pirate day

Sports Day
